PROFESSIONAL SUMMARY

I lead the Reproduction Research Section at Oman's Livestock Production Research Centre, where I built and run the national semen cryopreservation laboratory — covering collection, CASA-based analysis, freezing, nitrogen storage and nationwide distribution for cattle and small ruminants. My published work spans bovine fertility, semen freezing, flow cytometry and conservation theriogenology, and my training covers ISO/IEC 17025 laboratory standardisation and experimental design. I work in Arabic, English and Russian, and I write software — I build the digital and AI tools my own research and outreach need.

CORE COMPETENCIES

Semen Cryopreservation	Extenders · Straw production · LN ₂ storage · Post-thaw QC
Artificial Insemination Programmes	Cattle · Sheep & goats · Oestrus synchronisation · Programme planning
Semen Quality Assessment	CASA · Flow cytometry · Sperm kinematics · Morphology
Embryo Technology	Superovulation · FSH dosing · Embryo grading · IVF research
Conservation Theriogenology	Arabian leopard · Arabian tahr · Genetic resources · Gene banking
Laboratory Quality Systems	ISO/IEC 17025 training · Experimental design · Biostatistics · SOPs
Digital & AI Tooling	React / Next.js · JavaScript · CSS
Programmes & Capacity Building	ICARDA · AOAD · IAEA / RAS · IsDB

EXPERIENCE

Head, Livestock Reproduction Research Section

2007 — Present

Livestock Production Research Centre, Directorate General of Agriculture & Livestock Research — Ministry of Agriculture, Fisheries and Water Resources

- Established the Section's semen cryopreservation laboratory — contributing to its design, equipment specification, commissioning and move into full production.
- Own the full bovine semen chain: production, analysis, freezing, storage and national distribution.
- Plan and deliver the Centre's annual artificial insemination programme.
- Lead research on cryopreservation and wider livestock reproduction, and prepare the Section's annual work plan and requirements.
- Served as Acting Director of the Animal Production Research Centre.

Animal Production Engineer — Rangeland Department

2000 — 2006

Directorate General of Animal Production — Ministry of Agriculture, Fisheries and Water Resources

— Rangeland and animal production work across Oman's grazing systems.

— Field extension and technical support to livestock keepers.

EDUCATION

MSc in Animal Sciences — Animal Husbandry

2005

Peoples' Friendship University of Russia (RUDN), Moscow

Thesis: "The Characteristics of the Romney Sheep Breed on Genetic Markers"

BSc in Animal Sciences

1999

Sultan Qaboos University, Sultanate of Oman

General Secondary Education Certificate

1993

Saif bin Sultan School, Ibri, Sultanate of Oman

TRAINING, CONFERENCES & COMMITTEES

- 2025 **Workshop on Artificial Insemination Management for IsDB Member Countries** — Islamic Development Bank (IsDB), Singosari–Malang, Indonesia (15–21 June 2025)
- 2020 **Member, Scientific Committee (Animal Sector)** — Oman Animal and Plant Genetic Resources Center, Sultanate of Oman (January 2020 – January 2022)
- 2016 **Workshop: Artificial Insemination in Small Ruminants** — Arab Organization for Agricultural Development (AOAD), Muscat, Oman (4–8 December 2016)
- 2016 **Evaluation and Standardisation of Agricultural Laboratories to ISO 17025:2005** — Human Resource Development Centre · sponsored by AOAD, Muscat, Oman (6–10 November 2016)
- 2013 **Workshop: Animal Extension and Production** — Ministry of Agriculture, Muscat, Oman (30 June – 4 July 2013)
- 2012 **Regional Coordination Meeting: Improving Reproductive and Productive Performance of Local Small Ruminants through Reliable AI Programmes (RAS/5/063)** — International Atomic Energy Agency (IAEA), Vienna, Austria (25–27 April 2012)
- 2012 **3rd Conference of the International Society of Camelid Research and Development** — Sultan Qaboos University, Muscat, Oman (29 January – 1 February 2012)
- 2011 **Workshop: Strategy of the Animal and Plant Genetic Resources Center** — Sultanate of Oman, Muscat, Oman (31 May – 1 June 2011)
- 2008 **International Conference on Small Ruminant Production and Health in Arid and Semi-Arid Regions** — Sultan Qaboos University, Muscat, Oman (26–28 January 2008)
- 2007 **Specialised Training: Molecular Characterization of Small Ruminant Breeds** — International Center for Agricultural Research in the Dry Areas (ICARDA), Aleppo, Syria (1–12 April 2007)
- 2007 **Training: Statistics and Experimental Design** — Human Resource Development Centre · Ministry of Agriculture, Muscat, Oman (24–28 February 2007)
